FEEDBACK

“WHAT STUDENTS SAY?”

SUPACHAT TUNYACHAT

This project has afforded me the opportunity to forge new friendships. Beyond mere similarities in age, it has facilitated the exchange of changing ideas and the acquisition of new experiences. I have been deeply impressed by the camaraderie among the participants; each individual readily extends assistance to one another. Despite our recent acquaintance stemming from our shared experience of residing abroad, there exists a palpable sense of concern and care among all involved, as if we have been acquainted for an extended duration. I extend my heartfelt gratitude to the entire team, encompassing both fellow members and instructors, whose concerted efforts have brought this project to fruition.

JENJIRA

"This program leveled up my English language skills and gained countless new experiences. What impressed me most throughout participating in OIEP is to have dinner with the host family. Get to exchange perspectives on life, culture, and local food from different countries that cannot be found anywhere else. Joining OIEP exposes us to new opportunities in life to study abroad or work abroad."

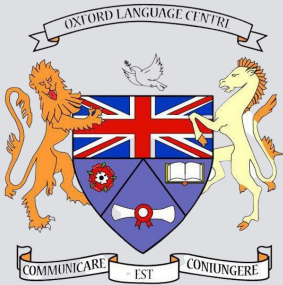

SARAH

"International Kingdom helped me grow another step to become a better person. If we have the opportunity to study abroad or live abroad in the future, I am sure it'll be easier to adapt. I would like to thank the International Kingdom for organizing such a great project, allowing us to go out and survive by ourselves. Thanks to the team and instructors for their hard work. Send us to our destination and return safely."
